Georgia State Parks & Historic Sites

PARKS GEOTOUR Passport

How it works

1. Read GeoTour information: GaStateParks.org/Geocaching

2. Sign up and log in to www.geocaching.com.

3. Find this GeoTour by clicking 'Play' then 'GeoTours'. Our Geotour is the "Georgia State Parks Geotour".

4. You will need a GPS phone to locate each cache.

5. Once found, trade items in the cache & write your name in the logbook. Bring something to write with.

6. Locate the codeword inside the geocache container. Write down that word on this passport in the box for the appropriate Park.

What's next?

Once you have 9 codewords for one region, email this passport (or a photo of it) to ParksRFun@dnr.ga.gov. We will mail you a region-specific geo-coin for each region you have completed. Good luck and happy geo-hunting!

NAME

ADDRESS

This is where we will ship your region-specific geo-coin(s).

COMPLETION DATE
